1946 MG-TC

After the second world war MG was one of the first manufacturers to resume building and exporting cars and many were imported into South America. The new 440 TC was an affordable entry into the world of sports cars and led to the rapid growth of sports car racing in this continent.

Since the 1946 MG-TC (1407) was intended as a replica of the car that won the 1935 24hrs. The car was built in 1988 entirely from parts belonging to original 1946 TC's. Since then it has been raced continuously at many tracks around North America.
